

Vehicle Loan Management Solution on Tally.ERP9

mPower VLM from Milan Tally Services is a dedicated solution built on Tally.ERP9 for Vehicle Finance and microfinance Institutions.

The vehicle financing market is rapidly growing. In order to address business and profitability challenges, lenders must be efficient, and responsive to both Auto Dealers and their Customers.

The most successful vehicle financiers focus their operations on managing risk exposure; leveraging size and scale to optimize processing efficiency; and meeting the needs of their customers. Milan offers solutions that help you manage the complete lending life cycle and maximize the lending experience. We continually invest in technology solutions and services that meet both market demands and consumer expectations.

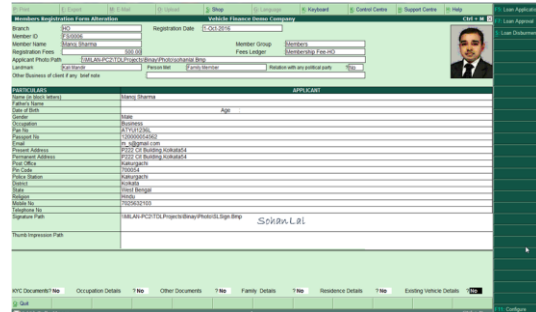

1. **Loan Management** – Registered Customers are provided with loans based on their financial requirement and qualification criteria.
 - a. Customer Registration
 - b. Loan Application
 - c. Loan Approval
 - d. Loan Disbursement
 - e. EMI Receipt
 - f. Pre-closure Settlement
 - g. Cheque dishonor
 - h. Vehicle Seizure
2. **Dealer Transaction** – Dealers are given lending business support for their customers. Hence a Customer can directly approach finance companies or come through Dealer to repay the loans.
3. **Registration Certificate** – Registration certificates are maintained and given to customer. It remains as Hypothecated to status until recovery of the loan.
4. **Insurance** - Insurance coverage information along with renewals are maintained in the system for easy recovery in case of an accident.

Milan offers end-to-end software and services that support all of your vehicle financing and business needs, from loan application through settlement. We also offer high-tech outsourced services for web development, customer support, and partner marketing. A business partnership with Milan helps make your lending operation more versatile and gives you a competitive edge that will position you for future growth.

Features of mPower VLM

mPower VLM is a solution built on Tally.ERP that provides:
